

Needs Assessment Exploration Framework

The following descriptions will assist you in pre-planning and creating focus for your needs assessment:

- Geography- We are interested in services that are meaningful to people who live:
- Demographics (church target alignment)- We are interested in serving people who fall within the following demographic description:
- Services of Interest (church target alignment)- Based on our interaction / experience with our church demographic target, we believe that the following needs should be explored in our needs assessment process:
- People at the margins (biblical justice alignment)- We are interested in service interaction with people who are at the margins of society and include:
- Passion and Calling: While we will explore many service areas in the community, based upon our unique skills, gifts and calling we want to make sure to include the following areas of community involvement:

Exploration Framework:

Our needs assessment will include sponsors, surveys, interviews and focus groups based on the following criteria:

- Location (boundaries or geographic area)
- Services provided to (types of people)
- Types of Services (specific services)
