

# Compassion by Design Church Planter Portal

Helping planters grow missional new churches that transform their communities through intentional service and redemptive relationships.

**Purpose:** provide new churches with the support to grow a healthy new church in which community service with an incarnational strategy is a core value.

## Planting by Serving Process

- 1** Participants are committed to growing services that foster healthy relationships with high quality community services that express a character of credibility and accountability.
- 2** Community service efforts will not crowd out the growth of the new church, but will be integrated to enhance growth.
- 3** Churches will line up their resources and development with their community service plans.
- 4** Community service will be integrated with and support relational evangelism and discipleship.
- 5** All communication regarding service activity will include the church planter and sponsoring agencies in open dialogue.
- 6** All new churches at the Affiliate level and above will complete a community service strategy, needs assessment and community service plan as a part of their process.
- 7** Affiliate and Franchise participants will complete brief monthly service reports to help track their progress.
- 8** Those who choose to operate a separate non profit or a social enterprise, will do so only after recruiting a suitable and experienced local leader and completing a business plan.
- 9** Franchise participants will abide by the franchise and management policy of the Compassion by Design umbrella organization, and receive approval of their church planting accountability system.

Planters and their primary sponsors must agree to these commitments.

## 9 Commitments

# Getting Started

**1** Review the resources and opportunities on the detail pages that follow.

**2** Select a level of involvement that fits your commitment to “plant through serving”.

Get started today at [www.compassionbydesign.org](http://www.compassionbydesign.org)
